DETAILED ACTION

Notice to Applicant

1. This communication is in response to the amendment filed on 8/16/06. Claims 1-55 are pending.

Claim Rejections - 35 USC § 101

2. The rejection of claims 1-30 under 35 USC 101 is hereby withdrawn.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-30 remain rejected under 35 U.S.C. 103(a) as being unpatentable over Lockwood (5,706,441) in view of Pack-Harris (6,195,612) for the same reasons as stated in the previous Office Action.

5. New claims 31, 32-41, 42-47, 48-50, 51, 52, 53, 54, and 55 repeat limitations of claims 1-30 and the reasons for rejection are incorporated herein.

Response to Arguments

6. Applicant's arguments filed 8/16/06 have been fully considered but they are not persuasive. Applicant's arguments will be addressed hereinbelow in the order in which they appear in the response filed 8/16/06.

(A) In response to applicant's arguments against the references individually, one cannot show nonobviousness by attacking references individually where the rejections are based on combinations of references. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981); *In re Merck & Co.*, 800 F.2d 1091, 231 USPQ 375 (Fed. Cir. 1986).

(B) Applicant argues that because Lockwood is used by health-care networks to more efficiently oversee the operation of the health care network it teaches away from the use of the method as a quality rating tool for selection of a health care provider by a health care consumer. In response, Examiner points out that the claim language describes *only* a "quality rating tool." It is not specified *who* will use the "quality rating tool." Thus, even if an administrator of the network uses the "quality rating tool" of Lockwood, it does not necessarily imply his or her motives are not aligned with a health care consumer as Applicant suggests.

(C) Applicant next argues Pack-Harris does not teach or suggest creation of a "quality rating tool" and in combination with Lockwood only creates a system that assists medical service providers in saving costs and enhancing their "bottom line." Applicant

Art Unit: 3626

cannot show non-obviousness by attacking the Pack-Harris reference individually when the rejection is based on Lockwood in view of Pack-Harris. Examiner utilizes the Pack-Harris reference to teach the feature of monitoring prescription utilization information. Furthermore, the claim language does not specify how the "quality rating tool" can be used. The claim language in independent claim 1 describes using the tool to select an entity but does not specify what the criteria is based on.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
